

Tolworth Broadway

Your final chance to have a say:

Angry local residents have joined forces with local Conservative Councillors to force a rethink over the badly thought out 'Greenway' scheme.

Residents want Tolworth Broadway to be improved but most question the scheme as currently proposed. The proposal includes the highly dangerous plan to remove the central safety barriers. It also proposes to have a central route called the "Greenway" (which is in reality just green paint on bricks) which forces cyclists and pedestrians to use the same roadway, a move regarded as highly dangerous to both. It is also planned that shoppers will sit in the middle of two dual carriageways of traffic and read books and newspapers! ! !

Local Councillor Richard Hudson says: *"Tolworth does need regeneration, but this is £2.6 million pounds of taxpayers money on the wrong scheme. Who in the Council and which of the Councillors, that are **forcing** this through, will take responsibility for the first death caused by this scheme? When that happens they will **all** deny involvement – this lack of accountability is shocking"*

How you can make a difference:

Sign the e-petition on the Royal Borough of Kingston Website, make your friends and neighbours aware of what is proposed, collect signatures on the petition form on the reverse and then return this to Cllr Hudson at Room 35, The Guildhall, High street, Kingston upon Thames KT1 1EU by mid February. Come to the Scrutiny of the scheme and listen to the arguments that the LibDems don't want you to hear. **Email me for the date.**

Feel free to make your own mind up:

Details of the scheme can be found online at the RBK newspeak website:

http://www.kingston.gov.uk/browse/environment/area_based_projects/tolworth_project.htm

Tell Cllr Hudson what you think:

Email: richard.hudson@councillors.kingston.gov.uk

Tolworth “Greenway” petition

We the undersigned call on the Council to reconsider the Tolworth “Greenway” project on the grounds that it is not fit for purpose as a regeneration project. In addition, it will; as currently planned, cause significant dangers to pedestrians and increase traffic congestion on a major arterial route.
